Acacia confusa

Acacia confusa is a perennial tree native to South-East Asia. Some common names for it are **ayangile**, **small Philippine acacia**, **Formosa acacia** (Taiwan acacia), **Philippine Wattle**, and **Formosan koa**. It grows to a height of 15 m. The tree has become very common in many tropical Pacific areas, including Hawaii, where the species is considered invasive.[3]

Uses

The wood has a density of about 0.75 g/cm^3.[4] In Taiwan, its wood was used to make support beams for underground mines. Acacia confusa is challenging to work and for this reason was traditionally burned as firewood or turned into charcoal in Taiwan. In later years it was exported to China to be made into wood flooring for the American market. At its height Taiwan exported more than 1,000 containers of Taiwan acacia to China. More recently it has been used domestically to produce high value wood products like musical instruments, furniture, and bathtubs.[5]

The wood is also converted to charcoal for family use. The plant is used in traditional medicine[6] and is available from herbal medicine shops in Taiwan, but there has been no clinical study to support its effectiveness.

Acacia confusa

Conservation status

Least Concern (IUCN 3.1)[1]

Scientific classification

Kingdom:	Plantae
Clade:	Tracheophytes
Clade:	Angiosperms
Clade:	Eudicots
Clade:	Rosids
Order:	Fabales
Family:	Fabaceae
Subfamily:	Caesalpinioideae
Clade:	Mimosoid clade
Genus:	*Acacia*
Species:	***A. confusa***

Binomial name

Acacia confusa

Merr.

Range of *Acacia confusa*
Synonyms
▪ *Acacia richii auct. non* A. Gray ▪ *Racosperma confusum* (Merr.) Pedley[2]

Acacia confusa habitat

Acacia confusa leaves and pods

Acacia confusa seeds

Phytochemicals

Phytochemicals found in *Acacia confusa*:

Root bark

- N-Methyltryptamine[7]

- N,N-Dimethyltryptamine[7]

Seeds

- Oxalyldiaminopropionic acid (α-amino-β-oxalylaminopropionic acid),[8] which can cause neurological damage, paralysis, and death.

Stems

- N-Methyltryptamine, 0.04%[7]

Varieties

- *Acacia confusa* var. *inamurai* Hayata
